Public Works

June 12, 1978

Refrigerated Bulk Tanker
161 3rd Street
Mountain View, California

Attention: Mr. R. D. Williams, Manager Public Works

Subject:

The industrial waste - the new facility.

Permit of your Industrial Waste - the new facility. The new industrial waste will be delivered June 12, 1978.

The proposed location of a pit separator to be indicated by you. Drawing of pit for waste separator to be prepared from this sketch system. The pit to be located in the third stage pit.

It is to be noted that you have verbally accepted the information that we will not be entitled to take responsibility unless there is need to the protection process being served.

You are hereby notified that if at any time a separable mixture is directed to this facility, a minimum level alarm will be required in the first stage pit.

This pit, as now shown on your Drawing #2870, is acceptable for use as an industrial waste neutralizing facility.

By this approval for use, the City is no way assume responsibility for the safety of the facility to treat or neutralize the wastes directed to it.

Yours very truly yours,

GEORGE L. ROSENSTEIN
Public Works Engineer
